

Solution Architect

About

I started working with programming in 1997, and worked for large and small companies, in which I was given a vast knowledge in the Brazilian and international market. Then I continued as a Delphi programmer, actively participating in discussion groups. Many of the jobs I did were involved with financial and administrative processes for government agencies. I also worked as a Java programmer, using market frameworks. Finally DevOps enthusiast and Solution Architect.

Professional Experience

Novell Services – Solution Architect

(June 2016 – Current)

- Lead architect in the continuous integration and continuous delivery (CI / CD) solution, in which the tool I helped develop and improve delivers more than 2,000 applications per month, in Windows, Linux, Solaris and Oracle databases.
 - Integrating with testing tools:
 - JUnit;
 - Code validation, inspection and vulnerability:
 - SonarQube, IBM AppScan, Microfocus Fortify;
 - Versioning:
 - Starteam, GIT.

Borland (a Microfocus Company) – System Analyst

(January 2008 – June 2016)

- System analyst and Developer, using programming languages:
 - Java, Delphi, .net, Oracle, SQLServer, MongoDB database
 - Clients:
 - PRODAM, PRODESP, Prefeitura do Rio de Janeiro, Polishop, DZ-Bank (Germany), Embraer, Fundação Dondé (Mexico), Safra, Bradesco, Itaú, Rede, Elo, Cielo.

Between 2000 and 2008

- GMD Logística – Programmer
- BNS – Bureaux de Negócios e Serviços – System Analyst
- Soft-It Tecnologia – System Analyst
- Visuelles Informática – System Analyst
- Nêutron Consultoria – Programmer

Skill

DevOps (2 years)

- Helped to implement project mats in agile teams, using market software (Microfocus, Atlassian and IBM), mainly focusing on CI / CD and Cloud.

Java Programming (>5 years)

Software Security (1 year)

Cloud Computing (1 year)

Scrum Master (>2 years)

- Participated in >4 projects, from conception to final acceptance.

IT Strategy & Service Management

IT Trends, Cloud and DevOps

Project and Program Management

Leadership (<5 years)

- Participated in self-managed projects, Time-and-Materials and Fixed Price projects.

Results and Customer Driven

Consulting Selling

Education

University Mackenzie – 2005 Master Degree

- Information System

Massachusetts Institute of Technology (MITx)

- Introduction to Computer Science and Programming

University of California, Berkeley (BerkeleyX)

- Software as a Service

Impacta Tecnologia

- Java Developer

Tekno

- Oracle, SQL Server and NoSQL Database

Colégio Paralelo – 1998 Technical Degree

- Processamento de Dados
